1-877-358-7611 p 520-323-9139 f

GalileoInfo@ati-online.com

Contact: Craig Mayhew

Galileo Pre-K Online from Assessment Technology Incorporated provides a data-driven, standards aligned approach to the management of learning from infancy through age five. ATI's patented technology offers research-based, multi-method, customized assessments aligned to state and federal standards. The curriculum provided in Galileo includes classroom and multi-media activities aligned to standards.

Automated activity recommendations based on a child's developmental level, revealed through assessment, help teachers to accommodate each child's unique learning needs. Reports aggregated at multiple levels and available across multiple years provide real-time progress and outcome information documenting children's accomplishments.

The Merlin family services component of Galileo provides a problem solving approach to meeting family needs. Merlin technology makes it possible to set and record family goals, record plans designed to promote goal achievement, and evaluate the level of goal attainment. Merlin provides a broad range of reports including customized reports and the Program Information Report (PIR) with automated calculations.

Company's products and services to be highlighted at the conference:

Early Childhood Language and Literacy Development Through Music

ABC Music & Me is a research-based early childhood curriculum that uses bundled, thematic 30-minute lessons to help young children learn important language, listening, and social skills. Created by Kindermusik International, a leading provider of early childhood programs, ABC Music & Me makes it easy for the classroom teacher to harness music to engage students and teach them skills ranging from vocabulary and self expression to self-regulation. Designed and proven to offer all the cognitive benefits of music and movement to preschoolers, kindergarteners, and emerging readers. ABC Music & Me is for everyone! It is particularly beneficial for at-risk students, English Language Learners, and children with special needs.

Through songs, rhymes, stories, and activities, this turnkey program: Improves early language development, pre-literacy, and word recognition; Strengthens fine-motor, gross-motor, and locomotor skills; Cultivates sharing, self-regulation, and self-control; and Develops the whole child

Company's products and services to be highlighted at the conference:

Give your Head Start students' literacy learning a boost!
Important school-readiness skills. Professional Development/Staff Training opportunities.
Family Involvement component. See how ABC Music & Me aligns with Head Start budgets and its use a source of in-kind!

859-431-2075 p 859-431-5217 f

www.growing-sound.com

Contact: Emily Sandul

esandul@childreninc.org

Growing Sound develops music and other products that translate key findings from recent child development research into practical and entertaining products for teachers, parents, and children.

Founded in 2007 as a new venture of Children, Inc., our products stimulate social and emotional development in a way that is fun for young children. While many products/programs focus on managing children's problem behaviors, Growing Sound is a proactive, strength-based approach to helping children discover the goodness in their lives and in themselves. Growing Sounds' creative productions are led by David Kisor, an award-winning singer, songwriter, composer, performer and teacher.

Company's products and services to be highlighted at the conference:

Growing Sound offers a wide variety of music CDs, classroom manuals, videos and books that are available in traditional formats as well as electronic downloads. Our teacher materials provide activities and tips that help maximize the songs and enhance their message. In addition, Growing Sound provides training and concert services for educational centers. Our Creative Director, David Kisor regularly performs and leads trainings across the country on the power of social and emotional development.
